Importance: High

Dian,

I've incorporated a few changes to provide a little more context to some of the answers, so let me know your thoughts. Additionally, if you haven't done so already, check with Shanta and Debra on the most recent application rates and product identifiers (see comments in the Q and As) and have them confirm this information.

Best regards,

Marion J.

I have not heard anything from the OPP front office after they received the latest version of the update. I will check with the team leader.

I need feedback quickly on the Q&As I sent to you all this afternoon about aldicarb. I've attached them again here.

Dian

Dian,

Just checking in. I've somewhat lost track of the version control for the OPP Update with regard to aldicarb. However, I see in a couple of the latest iterations that there seem to be no remaining questions from Mike, et. al.. However, let me know if there's anything that still requires our (i.e. IVB2's) response or input. Many thanks for your assistance!

Best regards,

Marion J.

Importance: High

Hi All,

I had sent a revised version to my TL earlier this morning, which she forwarded on to Mike and Ed. It addressed some of Mike's comments. Haven't heard back from either Ed or Mike yet.

That version is attached, along with the Q&As for strep citrus. Trying to work on the ones for aldicarb now.

Dian,

The document has been revised to address Mike's comments. Heather and Sandip may have something else to add to this document.

Cynthia

Hi All,

Please see Mike Goodis's comment and questions on the OPP Update and let me know how you want to address them.
